

220V 60W Soldering Iron Core Heating Element Replacement Welding Tool

-
- ❁ The heating element of the iron core is the best alternative to the old core, ensuring the efficiency and long life of the iron.
 - ❁ Model:SY-60W Power: 60W Voltage: 220V/ 50Hz Size: 62x12mm/2.44x0.47"
 - ❁ Applicable models: domestic same size external heating electric iron

Product description

Feature:

The heating element of the iron core is the best alternative to the old core, ensuring the efficiency and long life of the iron.

Specification:

Model:SY-60W

Power: 60W

Voltage: 220V/ 50Hz

Size: 62x12mm/2.44x0.47"

Applicable models: domestic same size external heating electric iron
