

DIY MOBILE BATTERY CIRCUIT BOARD

5V 1A Power Bank Charger Board Charging Circuit PCB Board Step Up Boost Power Module Mobile Phone For 18650 Battery DIY

Product Introduction:

1. Apply Battery Type: 18650 battery (not include)
2. Output Voltage: 5V/1A
3. Input Voltage: 3.2V-4.2V

Length : 7.1cm

width : 1.8cm.

High : 0.5cm

Connection: The battery positive should connect B+, and battery negative should connect GND
