

DIGITAL AC VOLTMETER G

Description:

22mm AC 50-500V Digital AC Voltmeter Voltage Meter Gauge Digital Display Indicator Green

Specification:

| | |
|----------------------------|------------|
| Mounting hole | 22mm |
| Voltage | AC 50-500V |
| Class of safety protection | IP65 |
| Color | Green |

Features:

Using copper contact, not easy to oxidize and durable.

Life time can reach 100000 hours with LED chip.

Widely used in electric power, CNC lathe, printing, mechanical equipment, medical equipment, instrument equipment, etc.

AD16-22DSV panel indicator led:

Daier's many kinds series of indicator lights offer many different color, rating and waterproof and so on. With wire or without, surface mount, thread mount options.

With the active support of our team of experts, we are engaged in offering a huge gamut of Indicator Light. Our company is highly acclaimed in offering a wide range of Indicator Light. We offer this superior make Indicator Light as per the diverse needs of our client. Being economically priced, this Indicator Light is very popular in the industry.

We are amongst the prominent organizations that are involved in offering a wide array of Indicator Light. These Indicator Lights offered by us are manufactured using high grade quality materials that are thoroughly tested. Besides, these Indicator Lights are have long functional life.

Pls check the datasheet below:

| | | | |
|------------------------|--------------------------|----------------|--------------|
| Diameter: | 22mm | Light color: | Green |
| Light voltage: | 3/6/12/24/36/48/110/220V | Rated current: | 15mA |
| Material: | Plastic | Waterproof: | IP00 |
| Operating Temperature: | -25°C~+55°C | Light life: | 10,000 hours |
